

# Key investor information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

## ING ARIA - Flexible Strategic Allocation

### a Sub-Fund of ING Aria

Class: LU0539860485

This SICAV is managed by ING Solutions Investment Management S.A.

## Objectives and investment policy

The objective of the Sub-Fund is to realize long-term capital growth by investing directly or indirectly (through investments in UCITS/UCIs in accordance with the investment restrictions contained in the main part of the Prospectus) in a diversified portfolio of equities of all sectors, fixed-income securities, money market instruments, cash and/or deposits.

The exposure to equities ranges from 30% to 100% of the Net Assets of the Sub-fund and the exposure to fixed income, money market instruments, cash and/or deposits ranges from 0% to 70% of the Net Assets of the Sub-fund. The exact strategic allocation between the asset classes depends on expectations regarding the market trends while managing volatility and risk.

The exposure to equities is based on the geographic and sectorial repartition of the MSCI World index, although deviations are allowed for strategic reasons.

The investment horizon is long term.

The Sub-Fund may use techniques and financial instruments within the limits and restrictions contained in chapter II. B of the Prospectus.

The Sub-Fund may invest up to 10% of its Net Assets in high yield (non-investment grade) bonds.

The Sub-Fund will not invest in Asset Backed Securities ("ABS"), Mortgage Backed Securities ("MBS"), Contingent Convertible Bonds ("CoCos") more than 20% (maximum aggregated value) of its Net Asset Value. The investment in financial derivative instruments will be performed for hedging and efficient portfolio management purposes and not for investment purposes.

The Sub-Fund will not invest in bonds which are distressed or defaulted.

The Sub-Fund may then invest in forward exchange agreements and listed derivatives (such as futures and options) only. When entering into forward exchange agreements, the counterparty risk will be managed by either:

(a) Entering into open-ended transactions, so they can be unwound at all times, meaning that as soon as the cumulated mark-to-market value gets close to the limits set forth by the Management Company, which is below the limits described in chapter II. B, V, a) of the Prospectus, such instruments can be terminated upon decision of the Management Company and unrealized profits/losses paid respectively to the Sub-Fund or counterparties. As a consequence, the Sub-Fund will not need to collateralise these OTC transactions and the Sub-Fund will be able to comply at all times with the limits set forth in Luxembourg regulations.

(b) Or, accept cash collateral only so as to be able to comply at all times with the limits described in chapter II. B, V, a) of the Prospectus.

Currently, the Company does not use efficient portfolio management techniques as described in chapter II. B of the Prospectus.

As a result of the above, the Sub-Fund shall not put any haircut policy in place.

The Net Asset Value ("NAV") is calculated twice a month as of the fifteenth and the last calendar day of each month, (each a "Valuation Day"). The calculation day is the Business Day following the Valuation Day.

The Sub-Fund is denominated in Euro.

Capitalisation shares are available in registered form to investors, at the Management Company's (acting as Global Distributor) discretion. This Share Class is not distributing dividends.

## Risk and reward profile

With lower risk, With higher risk,  
←—————→  
potentially lower rewards potentially higher rewards

This indicator represents the annual historical volatility of the Sub-Fund over a 5-year period.

Risk Category 3 reflects limited potential gains and/or losses for the portfolio.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Sub-Fund's future risk profile.

The risk category associated with the Sub-Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Sub-Fund not taken into account in this indicator include the following:

**Currency risk:** The Sub-Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

**Interest rate risk:** An increase in interest rates may cause the value of fixed-income securities held by the Sub-Fund to decline. Bond prices and yields have an inverse relationship, when the price of a bond falls the yield rises.

**Credit risk:** The Sub-Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

**Financial, economic and political risks:** Financial instruments are impacted by various factors, of which, without being exhaustive, the development of the financial market, the economic development of issuers who are themselves affected by the general world economic situation as well as economic and political conditions prevailing in each country.

**Liquidity risk:** Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Sub-Fund's returns because the Sub-Fund may be unable to transact at advantageous times or prices.

**Derivative for hedging purpose:** The use of derivatives for hedging in a rising market may restrict potential gains.

## Charges

The charges and commissions are used to cover the Sub-Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

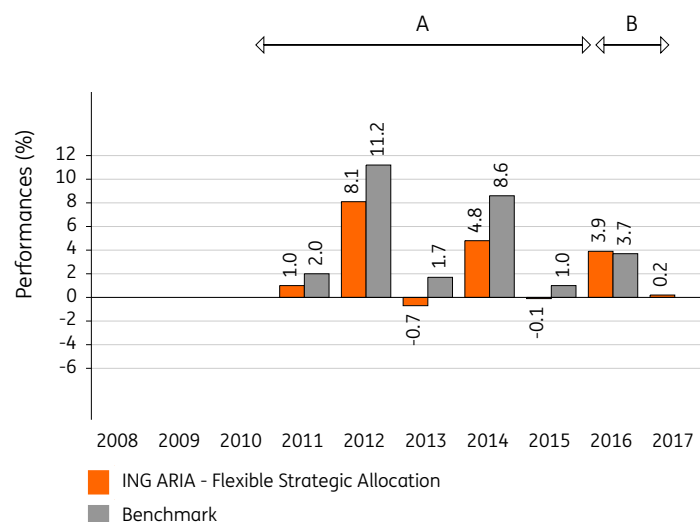

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	0.98%
Charges taken from the Sub-Fund under specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Sub-Fund when it buys or sells shares of another Fund.

**For more information about Sub-Fund charges, please refer to the relevant sections of the prospectus, which is available at [www.ing-isim.lu](http://www.ing-isim.lu).**
