ING Private Banking Optimal Selection Balanced a Sub-fund of ING Fund

Class: **W** (Distribution) LU1282855045

This SICAV is managed by ING Solutions Investment Management S.A.

Objectives and investment policy

The objective of the Sub-fund is to offer investors worldwide exposure to both bond and money markets and to equity markets of all sectors by investing in equity securities, fixed-income securities and money market instruments via open-ended undertakings for collective investment ("UCIs") and via open-ended undertakings for collective investment in transferable securities ("UCITS") or via cash and cash equivalents such as deposits with the latter representing a maximum of 1/3 of the net assets of the Sub-fund. The Sub-fund may also invest in mixed funds. The Sub-fund will not invest directly in Russian or Chinese securities.

The Investment Manager's role is to select UCIs/UCITS whose investment strategies are complementary and which ensure consistent performance in relation to the objective. Investing via UCIs/UCITS whose investment policies are complementary allows a certain dilution of the risk inherent to a single UCI/UCITS manager.

The investment horizon is long-term.

The Sub-fund might seek exposure to other asset classes, such as commodities. The exposure to commodities would be gained, only indirectly, via investments in UCIs/UCITS or Exchange Traded Commodities (ETC). No derivative instrument will be embedded in the ETC.

The assets of the Sub-fund are subject notably to risk relating to investing in units of UCIs/UCITS and to various risks (interest rates evolution, inflation, etc.) as further detailed in the relevant section "Risk Warnings" of the Fund's Prospectus, so that no guarantee can be given on the performance of the Sub-fund.

Investment restrictions: (i) The Sub-fund may be fully invested in units of eligible UCIs/UCITS within the limits of the law as per section 4.3 VI of the Fund's Prospectus; (ii) the investments in open-ended UCIs/UCITS investing in equities and in equity derivatives of all sectors will range from 35% to 65% of the net assets of the Sub-fund; (iii) the investments in cash and cash equivalents (up to 1/3 of its net assets) and open-ended UCIs/UCITS investing in fixed income and in fixed income derivatives of all sectors will range from 35% to 65% of the net assets of the Sub-fund; (iv) the Sub-fund may also invest in UCIs/UCITS or ETC whose primary objective is to seek exposure on commodities (max. 10% of its net assets) and in UCIs/UCITS whose primary objective is to seek exposure on real estate (max. 20% of its net assets).

At this stage it is not intended to invest in derivative instruments. The Sub-fund will not invest directly in asset backed securities nor in mortgage backed securities.

Your shares will be distributing shares.

Investors may request redemptions of shares daily in line with the relevant section of the Fund's Prospectus.

In the best interest of the investors, the Sub-fund may, for a limited period of time and due to financial market conditions, hold up to 100% of its net assets in cash and cash equivalents.

Risk and reward profile

This indicator represents the annual historical volatility of the Sub-fund over a 5-year period.

Risk Category 4 reflects moderate potential gains and/or losses for the portfolio. This is due to investments in fixed-income securities, money market instruments and equities.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Sub-fund's future risk profile.

The risk category associated with the Sub-fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Sub-fund not taken into account in this indicator include the following:

Currency risk: The Sub-fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Interest rate risk: An increase in interest rates may cause the value of fixed-income securities held by the Sub-fund to decline. Bond prices and yields have an inverse relationship, when the price of a bond falls the yield rises.

Credit risk: The Sub-fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Sub-fund's returns because the Sub-fund may be unable to transact at advantageous times or prices.

Financial, economic and political risks: Financial instruments are impacted by various factors, of which, without being exhaustive, the development of the financial market, the economic development of issuers who are themselves affected by the general world economic situation as well as economic and political conditions prevailing in each country.

Charges

The charges and commissions are used to cover the Sub-fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Sub-fund over a year
