

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## MSP Pure Bond - I Cap (Hedged)

ISIN: LU0354675562

A sub-fund (hereafter referred to as the fund) of Multi-Strategy Portfolio

This fund is managed by ING Solutions Investment Management S.A.

### Objectives and Investment Policy

The objective of the Sub-Fund is to seek exposure to bond and money markets directly or indirectly via open-ended UCITS (Undertakings for Collective Investment in Transferable Securities) /UCIs (Undertakings for Collective Investment) (in accordance with article 41.1 (e) of the Law of 2010) and eventually through derivative instruments. The Investment Manager's role will be to select UCITS/UCIs whose investment strategies are complementary and which ensure consistent performance in relation to the objective. Investing via UCITS/UCIs whose investment policies are complementary allows a certain dilution of the risk inherent to a single UCITS/UCI manager. Measured over a period of several years the Sub-Fund aims to beat the performance of the Benchmark JP Morgan GBI EMU. The exposure of the Sub-Fund is based on the geographic and sectorial repartition of this Benchmark, although deviations are allowed for strategic reasons. The combination of the strategies of the target UCITS/UCIs allows

the Sub-Fund to offer a diversified and easily accessible investment vehicle. There is no benchmark for this specific hedged share class as we apply a currency hedging strategy. By hedging our currencies we aim to avoid currency risks for Euro (EUR) investors. We hedge all currency risks in the benchmark of the sub-fund to the reference currency of this share class (EUR). The risks of exchange rate fluctuations against the EUR, related to over- and underweight positions in the portfolio versus the benchmark of the sub-fund, remain in this share class. A currency hedge consists of taking an offsetting position in another currency. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.

### Risk and Reward Profile

Lower risk - Typically lower rewards

Higher risk - Typically Higher rewards

Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this fund. There is no guarantee that the risk indicator will remain unchanged, it may shift over time. The lowest category of risk does not mean that the investment is risk-free.

This fund is in category 3 because of the behaviour of the product during the measuring period. The overall market risk, taking into account past performances and future potential evolution of the markets, associated with

financial instruments used to reach the investment objective is considered medium. These financial instruments are impacted by various factors. These include, but are not limited to, the development of the financial market, the economic development of issuers who are themselves affected by the general world economic situation and the economic and political conditions in each country. Expected credit risk, the risk of failure of the issuers of underlying investments is medium. Moreover, the currency fluctuation may impact the fund's performance. No guarantee is provided as to the recovery of your initial investment. Hedging share classes, a method to try to manage specific currency risk, may lead to additional credit risk and to residual market risk depending on the effectiveness of the hedging performed.

## Charges

All charges paid by the investor are used to pay the running costs of the fund, including the cost of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest:

Entry charge	5%
Exit charge	0%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the fund over a year:

Ongoing charge	0.93%
----------------	-------

### Charges taken from the fund under certain specific conditions:

Performance fee	0%
-----------------	----

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. The ongoing charges figure shown here is an estimate of the charges. The reason an estimate is made because the cost figures in the past period can not be used to reflect the current cost level. The annual report for each financial year will include detail on the exact charges made.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the funds when buying or selling units in another collective investment undertaking

You can find more detail about the charges in the chapter "Subscriptions, redemptions and conversions" and "Fees, expenses and taxation" of the prospectus which is available on the website [www.ing-isim.lu](http://www.ing-isim.lu).
